- 1

Navigation sub menu from standard display sized screen is hidden on smaller sized screens.
- 2

Interview topic is displayed directly above questionnaire panel, instead of in the sub menu.
- 3

Hamburger menu icon and text are added.
- 4

"Continue" button stretched to col-12 for an increased touch target.
- 5

On click of menu icon, panel is pushed right, and menu is displayed.  
Main interview topics of the form are displayed as menu options.
- 6

The dashboard link is anchored to the top of the menu and differentiated by an aqua vertical bar acknowledging this action lies outside of the "create" flow.
- 7

The "Review" section, advances the user to the final step in the process.
- 8

For menu options with sub menus, a "plus" icon is present. On click, of the "+" sub menu a drop down list is rolled down. Navigation is actionable on the main option, taking the user to the first sub menu category.
- 9

Besides "Project General", "Co. & Contacts" is the only other menu option to have sub menus at the moment.
- 10

Clicking the "minus" icon closes options with sub menus.
- 11

Other category menu options are displayed scrolling down.
- 12

Clicking outside of the menu, clicking the x, or clicking the hamburger icon again, closes the menu.
